

Brief CV

Name	Fei Wu	Gender	Male	
Title (Prof. / Dr.)	Professor	Country	China	
Phone Number		Emails		
University Department	Institute of electrical and electrical engineering			
Personal Web Sites	http://seee.sues.edu.cn/78/a0/c11012a30880/page.htm			
Research Area	Computer parallel processing and energy saving control, information physics fusion system, smart home, green computing.			

Brief introduction:

Fei Wu received the B.S. degree, M.S. degree, and Ph.D. degree in computer science and technology from the National University of Defense Technology, Changsha, China, in 1990, 1994, and 1998, respectively. He was a Post-doctoral Fellow in automation control from the National University of Defense Technology, in financial mathematics from Nankai University, respectively. In 2005, he transferred to a local job, and now he is a professor in Shanghai University of Engineering Science (SUES) and a member of the academic committee of SUES. He is an advanced member of China Computer Federation and a member of ACM. He presided over and participated in 863 program projects and national natural fund project. He won the second and third prize of the National Defense Science and Technology Commission, the first Young Scholar Award of Hunan Government, the first GuangHua Scholar Award, etc. He published more than 20 journal articles and obtained 5 national invention patents. His research interests include computer parallel processing and energy saving control, information physics fusion system, smart home, green computing.
