

Brief CV

Name	Song wanqing	Gender	male	
Title (Pro./ Dr)	Professor/doctor	Country	china	
Phone Number		Emails		
University Department	School of electronic and electrical, shanghai university of science & engineering			
Personal Web Sites				
Research Area	condition monitoring and faulty diagnosis, signal process, DCS and Fieldbus, tire dynamic analysis, intelligent control and computation			
Brief introduction				
<p>professor Wanqing Song got his PhD degrees in Control Mechanical Manufacture and Automation from Donghua University. His research fields includes industry control, Mechanical & Electrical Integration, intelligent control algorithm, image process. In recent years, the research field includes the mechanical fault diagnosis and pattern recognition, time series analysis, vehicle tire dynamics analysis and modeling. 30 papers in journals and 10 papers in conferences have published, 20 papers in them is indexed by SCI and EI. In 2013 year, senior visiting scholar at Virginia Tech. he has been invited to have lecture at university of Roma, University of Perugia, University of Salerno in Italy, respectively. two items for invention patent and three items utility new type patent are granted. Two items for college students' innovative project and one item for graduate business program are granted by shanghai education commission, respectively. 2014, obtain one item for Shanghai nature science fund (Grant No. 14ZR1418500)</p>
