

## Brief CV

Name	Wei Liang	Gender	Female	
Title (Pro./ Dr)	Dr.-Ing.	Country	China	
Phone Number		Emails		
University Department	Automotive Engineering College, Shanghai University of Engineering Science			
Personal Web Sites	<a href="http://cae.sues.edu.cn/c8/8d/c10967a116877/page.htm">http://cae.sues.edu.cn/c8/8d/c10967a116877/page.htm</a>			
Research Area	Sensors and actuators, applications of surface acoustic waves, fluidic dynamics			

### Brief introduction

**Dr.-Ing. Wei Liang, Young Eastern Scholar of Shanghai, gainer of Morning Plan of Shanghai. She obtained her Dr. -Ing. degree with Prof. Dr.-Ing. Fischerauer and Prof. Dr. Lindner at the department of measurement and control technology in University of Bayreuth.**

**The research group of Wei Liang is dedicated to scientific and industrial oriented research in the area of surface acoustic waves, sensors and actuators, establishing a connection between the natural sciences and engineering technology. Emphasis is placed on the interdisciplinary cooperation among the scientists, bringing together the disciplines of physics, chemistry, biology, chemical engineering and mechanical engineering.**
